NORTHWEST LIMITED BOAT RACING

The history of powerboat racing in the Northwest draws a colorful picture. Legends like Ron Musson, Bill Muncey, and Chip Hanauer started their careers right here in APBA Region 10 limited boat racing. Northwest Region 10 has always been a stepping stone for the champions of unlimited ranks.

As the name implies, these racing craft must conform to very strict rules prescribed by the APBA. Each class is restricted to size of engine, type of fuel, length and weight. By equalizing, as much as possible, the boats and engines, emphasis is placed on good driving and expert maintenance of equipment.

Spend the afternoon watching Limited Racing and enjoying one of the most captivating events in motorsports.
